

Thursday 23rd October 2025

Hello,

Upcoming work on the electricity network in your area

Vector owns and operates electricity and gas networks across the greater Auckland region. We're constantly working to ensure they are safe and reliable.

We'd like to let you know about upcoming work we are doing to upgrade electrical equipment in your area. The work will also support the development of a new data centre, which will deliver essential information storage and exchange services to the wider community. The work, which will happen in phases, is scheduled to start early **November 2025** until approximately mid-2026.

The initial phase of the project involves excavation to install new ducts, followed by temporary surface reinstatement. Once we've finished, upgrades to electrical installation will begin, with the final surface reinstatement scheduled in 2027 (we'll keep you updated as we go).

We appreciate this is a significant amount of time to be in your area and are committed to getting it finished as quickly and quietly as we can. We have coordinated with Auckland Transport to minimise disruption to you and your community as much as we can. Some of the things we're doing to reduce this impact include: always maintaining access to homes and businesses, temporary parking changes to maintain traffic flow, signage boards, and the use of noise mats.

Work will take place on the following roads (which will be signposted):

- Airfield Road (1–90)
- Porchester Road (252–314)
- Takanini School Road (20–56)
- Nancy Wake Street (West)

The first phase will begin on Airfield Road, between Porchester Road and Takanini School Road, followed by Takanini School Road (see the reverse side of this letter for a map of the work zones).

During the work period please expect the following:

- **Excavation work** – there will be excavations in the roadway which will be barriered off for safety. Where required, mats will be used to reduce noise and vibration from construction equipment.
- **Work hours** – Monday to Sunday, 7am–7pm. Some late evening work (until 10pm) may occur for critical tasks.
- **Noise management** – Noisy activities (e.g., concrete cutting, hydro-vacuuming) will be limited to 8am–6pm as much as possible.
- **Parking and access** – Temporary street parking restrictions on Airfield Road. Property access may be limited at times. Affected residents will be notified in advance.
- **Power outages** – In 2026, planned outages may be required. Affected customers will receive advance notice.

The work will be carried out by Stockman General Contractors on behalf of Vector. If you have any questions, please contact Lisa Jenkins of Stockman General Contractors on 021 329 982 or email lisa@sgc.co.nz or Marty Arwani on 027 475 0042 or marty@sgc.co.nz

We understand the inconvenience this may cause and appreciate your patience - thank you for your understanding.

Kind regards,

Graeme Marshall – Vector Project Manager

Takanini School

Works on Airfield Rd from
Portchester to Takanini
School Rd is planned to take
place from 1st November to
Mid-December 2025

Airfield Rd will be open to
Oneway Traffic: Entry from
Takanini School Rd only
No Entry from Portchester Rd

Access to Gum Spear
Rd will be restricted for
approximately 3weeks

The Green Area is the Work Zone
Property Access will be maintained
Traffic Flow is from West to East
Entry from Takanini School Rd ONLY

DETOUR ROUTE

NO LEFT TURN
TO AIRFIELD RD
USE KAUNU HEART
