

Tuesday 20 January 2026

Hello,

### An update on the electricity network project in your area

As promised, we'd like to keep you updated on the project as we work through your area and take this opportunity to thank you for your patience so far.

As a reminder, we're here to upgrade electrical equipment near you, as well as support the development of a new data centre, which will deliver essential information storage and exchange services to the wider community. The work is currently underway until approximately mid-2026. Final reinstatement is scheduled in 2027 (we'll keep you updated as we go).

Excavation has started on Porchester Road, between Popes Road and Airfield Road. **We're also preparing to move back into Nancy Wake Street (West) and then on the northern section of Takanini School Road on to Porchester Road from approximately Tuesday 27 January 2026, and then into Airfield Road (between Porchester Road and Mill Road) from approximately Thursday 5 February 2026** (please see the reverse side of this letter for a map of the work zones and latest timeframe).

Once again, we appreciate this is a significant amount of time to be in your area and are committed to getting it finished as quickly and quietly as we can. We've coordinated with Auckland Transport to minimise disruption to you and your community as much as we can.

#### **Work will take place on the following roads (which will be signposted):**

- Airfield Road (1–90)
- Porchester Road (252–314)
- Takanini School Road (20–56)
- Nancy Wake Street (West)

#### **During the work period please expect the following:**

- **Driveway Access** – on the even (western) side of Porchester Road will be restricted from approximately 7am -7pm. Traffic control staff will assist you with access during these times. Please bear with us during this time as we complete the work as fast as possible.
- **Excavation work** – there will be excavations in the roadway which will be barriered off for safety. Where required, mats will be used to reduce noise and vibration.
- **Work hours** – Monday to Sunday, 7am–7pm. Some late evening work (until 10pm) may occur for critical tasks.
- **Noise management** – Noisy activities (e.g., concrete cutting, hydro-vacuuming) will be limited to 8am–6pm as much as possible.
- **Parking and access** – Temporary street parking restrictions on Porchester Road. Property access may be limited at times. Affected residents will be notified in advance.
- **Power outages** – In 2026, planned outages may be required. Affected customers will receive advance notice.

The work is being carried out by Stockman General Contractors on behalf of Vector. If you have any questions, please contact Lisa Jenkins of Stockman General Contractors on 021 329 982 or email [lisa@sgc.co.nz](mailto:lisa@sgc.co.nz) or Marty Arwani on 027 475 0042 or [marty@sgc.co.nz](mailto:marty@sgc.co.nz)

We understand the inconvenience this may cause and appreciate your cooperation.

Kind regards,

**Graeme Marshall – Vector Project Manager**

Please note that driveway access on the even (western) side of Porchester Rd & Takanini School Rd will be restricted from 7am to 7pm due to our works.

Our Traffic Control staff will assist you with access during these times. We request your patience during this time as we try to complete the work as fast as possible

Note that detour routes will be in place during all phases.

Please follow the sign posted detours. If unsure please ask one of our friendly crew on site and they will be able to assist
